

Nominal and real 10-year Treasury yields

Source: BLS, FactSet, Federal Reserve, J.P. Morgan Asset Management.

Real 10-year Treasury yields are calculated as the daily Treasury yield less year-over-year core CPI inflation for that month except for April 2018, where real yields are calculated by subtracting out March 2018 year-over-year core inflation.

Guide to the Markets – U.S. Data are as of April 30, 2018.
